Applications of Comcast Corporation, General Electric Company, and NBC Universal, Inc. for Consent to Assign Licenses or Transfer Control of Licensees, Protective Order for Compliance, 26 FCC Rcd 2045 (MB Feb. 22, 2011).

February 22, 2012

VIA HAND DELIVERY

Ms. Marlene H. Dortch Secretary Federal Communications Commission 445 Twelfth Street, S.W. Washington, D.C. 20554

Re: In the Matter of Applications of Comcast Corporation, General Electric Company And NBC Universal Inc. for Consent to Assign Licenses and Transfer Control of Licenses. MB Docket No. 10-56

Dear Ms. Dortch:

In accordance with the provisions of the Memorandum Opinion and Order adopted in the above-referenced proceeding, ¹ Comcast Corporation ("Comcast") hereby submits the following information. This letter contains certain information designated as Confidential (identified by [[brackets]]) and is being submitted pursuant to the Protective Order for Compliance in effect in this proceeding.²

Introduction

Pursuant to FCC Order Appendix A § IV.D.3, Comcast is required to submit an annual report describing compliance with FCC Order Appendix A § IV.D.1 regarding Comcast's provision of standalone Broadband Internet Access Service ("BIAS") and providing certain additional information. In addition, Comcast is required to file a report upon any price adjustment of a standalone BIAS offering. Effective January, 2012, Comcast adjusted pricing

_

¹ In the Matter of Applications of Comcast Corporation, General Electric Company and NBC Universal, Inc. For Consent to Assign Licenses and Transfer Control of Licensees, Memorandum Opinion and Order, 26 FCC Rcd 4238 (2011) ("FCC Order").

² In the Matter of Applications of Comcast Corporation, General Electric Company, and NBC Universal, Inc. for Consent to Assign Licenses or Transfer Control of Licensees, Protective Order for Compliance, 26 FCC Rcd 2045 (MB 2011).

for its standalone BIAS services throughout service areas in which it offers BIAS services. In order to avoid the filing of duplicative reports in close proximity in time, Comcast is filing one combined report to satisfy the requirements for submission of both the annual report and the report based upon the standalone price adjustments that occurred in January, ³as coordinated with the FCC Media and Enforcement Bureaus on November 21, 2011.

Report

Comcast continues to offer standalone BIAS to customers throughout the service areas in which it offers BIAS services.⁴ Those offerings include a standalone BIAS tier in each of its markets under the name "Performance Starter" that Comcast has provisioned to deliver 6 Mbps down and offers at the retail price of \$49.95 per month. Comcast also offers other standalone tiers of BIAS, at reasonable market-based prices, with speeds that correspond to those offered in its retail multi-product offerings in the relevant service area.⁵ Such standalone offerings are available on equivalent terms and conditions to the most comparable BIAS tier available in Comcast's multi-product offerings. Further detail is available in Exhibit A.

³As noted below, in several markets identified in Exhibit A, Part I, price decreases are being implemented for two standalone BIAS tiers concurrent with this filing.

⁴ Comcast offers BIAS to over 99 percent of homes passed by Comcast cable systems.

⁵ Comcast generally sells BIAS in three ways: (i) on a standalone basis; (ii) with discounted, multi-product pricing (such that the price for the Internet access service is reduced if the customer subscribes to one or more other Comcast products); and (iii) as part of bundles for which Comcast determines aggregate prices, without separate pricing for the individual products. As Comcast does not determine separate pricing for the individual products within a bundle, Parts I and II of Exhibit A set forth speeds and pricing only for standalone and multi-product BIAS offerings. For reference purposes, Part II of Exhibit A also provides pricing information for Comcast's National Triple Play Bundles.

Parts I and II of Exhibit A set forth the standalone and multi-product BIAS speeds and pricing offered by Comcast to customers as of January 31, 2012 in Comcast's top 30 markets (which were determined as of January 15, 2012). The information reflects post-promotional pricing, and (in the case of the multi-product pricing) assumes that the customer continues to subscribe to one other product (video or voice) or all three products (video, voice, and Internet), as applicable.

Part III of Exhibit A sets forth, by company and to the best of Comcast's knowledge after review of those companies' websites, the standalone BIAS offerings of Comcast's principal competitors and the post-promotional pricing of such offerings. Comcast has identified principal competitors, their standalone BIAS offerings, and the pricing of such offerings as of January 15, 2012, except for RCN's standalone BIAS offerings and pricing, which are as of February 8, 2012.

In addition, Comcast notes the following:

- 1. Pursuant to FCC Order Appendix A § XVI.2, Comcast offers BIAS service under the name "Internet Essentials" throughout its service areas, including in each of the 30 markets referenced in Exhibit A. "Internet Essentials" is a comprehensive broadband adoption program that provides low-cost broadband access to households meeting the program's unique eligibility requirements. As this service tier is designed for a specific population with unique eligibility criteria and is subject to separate reporting under the FCC Order, Comcast treats it separately from the generally available retail services that are the subject of this report. Subject to the program's eligibility requirements, Internet Essentials is available on both a standalone and multi-product basis, with no differentiation in price.
- 2. The Ultra tier of service identified in a minority of the top 30 markets in the annual report filed by Comcast on February 22, 2011, is no longer available to new customers and has been excluded from Exhibit A, although that has not changed the service for existing customers.

these customers had been included in the 2011 Compliance Report, Comcast would have reported [[]] provisioned standalone BIAS lines as of January 21, 2011.

⁷ The eligibility criteria are codified in FCC Order Appendix A § XVI.2.f. Comcast recently announced that it will broaden the criteria so that National School Lunch Program reduced-price eligible families may participate. In addition, Comcast announced that it is increasing the speed of the Internet Essentials BIAS tier from 1.5 Mbps down to 3 Mbps down.

- 3. The standalone pricing identified by an * in Exhibit A, Part I is in the process of being reduced from \$41.95 per month to \$39.95 per month. All price reductions will be completed by March 15, 2012.
- 4. The standalone pricing identified by an ** in Exhibit A, Part I is in the process of being reduced from \$116.95 per month to \$114.95 per month. All price reductions will be completed by March 15, 2012.
- 5. During 2012, Comcast will begin to discontinue new offers of the Economy tier of service (1.5 Mbps down/384 Kbps up), although that will not change current service for existing customers
- 6. The top 30 markets were identified as of January 15, 2012.

Please do not hesitate to contact me should you have any questions.

Sincerely yours,

Lynn Charytan
